OFFICIAL PAPER OF BOLLINGER COUNTY.

Marble Hill Press

The columns of THE Pages are always free to the people of the county for the discussion of questions of local interest.

WE acknowledge receipt of the forty-third Annual Report of the Horticultural Society of Missouri. If you are interested in fruit growing, write secretary L. A. Goodman, Kansas City, Mo., for a copy and be convinced of its value to those interested in this important industry.

Vol. 1 No. 1 of Garretts Tongue, Garrett & Duncan publishers, Caruthersville, Mo., came to our table a few days ago. The Tengue is not a long one, and promises to be a very truthful one, is neatly arranged and printed on a good quality of book paper; devoted to real estate, It is a creditable monthly at 50 cents

WE are indebted to Prof. W. T. Carrington, State Superintendent of Public Schools, for a copy the Fifty first Missonri Report of Pubhe Schools, which has evidently been prepared with great care and painstaking. He gives briefly a complete history of the public school system of Missouri and how it originated; the value and condition school property; amount of state and county funds, the grand total of which is \$12,548,983.48. He recommends several beneficial changes in the school law, of which our readers will be informed later.

SENATOR MARSHALL'S constitution. al amendment for a resubmission of the third amendment, which provides for the taxation of mortgages, passed the senate last Wednesday twenty-two to nine.

If there is anything wrong with this amendment, why was it ever submitted to the people and why did the people vote for it? All of which was done at considerable expense to the taxpayers of the State. Why not submit the other six amendments also? If the people were mistaken in the one, they were probably mistaken in others. Senator Lee east his vote against

Wolf of Greene county, who was given a sent in the house of representatives in place of a republican, appears to have been overlooked in the distribution of clerks, which gave rise to a clerical force row in that body a short time ago.

resubmission

A resolution to give him a clerk was sent to the proper committee the chairman of which reported for the majority that no more clerks were needed. A minority report favored giving him a clerk because he was a democrat and bad been missed in the first distribution. In opposing the minority report Mr. Welker said, "If the business of the house needs more clerks, then I am willing to vote for them, but the idea of bestowing a clerkship be cause a member is a democrat is absurd." Mr. Orchard the chair man of the clerical force committee, insisted that the house "had clerks to burn," and had no use for more and was sustained by the house.

It appears from Mr Orchard's statement that the house has already bestowed too many elerkships and if that is the case there is no reason why more should be employed.

We are pleased to note that our representative, Mr. Welker, raises at present. his voice and casts his vote in the "Uncle" Peter Rhodes has sold interest of economy, and believe he his farm to a company who intend Sunday. will make a clean record.
